

VIRGINIA - GEORGIA TRANSFORMER
ONE SOURCE—ONE COMMITMENT

SOLID POWER FOR CEMENT

POWERING THE CEMENT INDUSTRY WITH RELIABLE TRANSFORMERS

From decades of experience in mining and heavy industry, Virginia Transformer is the trusted choice for successful cement manufacturers. Our durable, high-efficiency transformers power critical equipment such as cement mills, crushers, conveyors, pumps, and fans while withstanding harsh conditions, overloads, and high inrush currents, providing superior reliability and preventing costly downtime in cement operations.

With six manufacturing facilities across North America, we offer a full range of transformers for industrial applications, including motor-starting autotransformers, rectifiers, drive-duty units, and more. Our proprietary UNIClad® dry-type encapsulated transformers provide superior performance in the most demanding environments.

For fully customized units designed with a 60-year lifespan delivered with the shortest lead times in the industry, Virginia Transformer is the one-stop source for reliable power solutions for all cement applications.

PRODUCT RANGE

Up to 400 MVA 525 kV

BIL 1675 kV

LTC / DETC

Medium Power Transformers

Large Power Transformers

GSU Transformers

Auto-Transformers

Padmount Transformers

Traction Transformers

Rectifier Transformers

Dry-Type Transformers

WHAT VTC DOES

Virginia Transformer Corporation is the largest U.S.-owned power transformer manufacturer in North America, providing custom-engineered power transformers for data center, utilities, renewables, and specialty markets. Products range in power from 500 kVA to 500 MVA core type, up to 1,400 MVA shell type. Our mission is to deliver the perfect transformer for any application. To learn more, visit us at www.vatransformer.com.

With six manufacturing plants in North America,
Virginia - Georgia Transformer is the largest US-owned
manufacturer of power transformers and offers the
broadest product range.
